The whole of ECOPIC products are developed to discourage birds of landing and nesting on protected areas without hurting them.

The ECOPIC company guarantee the non direct aggressiveness of the products against birds, if they are correctly settled.

ECOPIC guarantees her products except bad using, extreme meteorology conditions...

To be valid, the spikes should be settled with material recommended by ECOPIC.

The guarantee exclusively covers the repair or free replacement in the company's workshops of parts recognized as defective by ECOPIC, or, where this is possible, the supply of parts serving the same purpose, for a period of twelve months. Any incidental costs, such as labour, call-out expenses and transport, or damages, notably for loss of use, are specifically excluded.

Spikes made in France by **ECOPIC**
